John, Christine,

I would like to have 26 datasets modeled using MSW, some or all by ICF. If Christine is available to run some of them, that would be great. In any case, as an alternate WAM Christine may be available to help me manage or review ICF's work.

I've attached a draft technical directive that explains more about the task and where the data files and data sources are.

. I'll be glad to discuss further or clarify anything else I've overlooked.

Thanks,
